### Mass DEP Staff

Eileen Hiney  
Glenn Keith  
Azin Kavian  
Rich Fields  
Marc Wolman

If materials related to any agenda item were distributed or presented at the meeting, it is noted below. For information concerning the agenda item discussed, please refer to these materials.

#### 1. EPA Proposed MACT Rules

- a. Boiler MACT - major and area sources (Susan Lancey, see presentation.)
- b. Utility MACT (Brendan McCahill, see presentation.)

#### 2. Air Permitting Update (Marc Wolman)

MassDEP is making progress in completely revising the Air Plan Application forms, instructions and guidance consistent with the Air Permit Streamlining Initiative and 2009 regulation changes. Furthermore, beginning later this year, a new MassDEP web page will list the Operating Permit facilities with links to the currently effective permits.

Effective Monday April 11, 2011, EPA returned delegation of the Federal Prevention of Significant Deterioration (PSD) major new source review permitting program to MassDEP. Applications for major new source construction and major modifications to existing major sources should be submitted to, and will henceforth be reviewed by, MassDEP pursuant to the federal regulations at 40 CFR 52.21. MassDEP is drafting a new state PSD regulation with the ultimate goal of implementing it as a SIP-approved regulation in lieu of the federal regulation.

There will be a meeting of the Air Permitting Forum, Wednesday April 27, at 10:00 a.m. Prospective agenda items include draft revised Modeling Guidance, posted on the Forum's web page.

3. SO<sub>2</sub> NAAQS Update (Ian Cohen, see presentation.)
4. American Lung Association State of the Air Report (Katie King, see presentation.)
5. Stage II Update (Eileen Hiney, see presentation.)
6. OTC Attainment Planning Update (Eileen Hiney, see presentation.)
7. Next SIP Steering Committee Meeting - Wednesday, August 10, 2011, at 10:00 a.m.
